## NACTT 2010 Staff Symposium Series

### Leadership Staff Symposia

Facilitated by: **Ronnie LeFevers, Nancy Strickler and Erin Rogers**

#### **Session 1: Change is Good – You Go First**

Change is not easy. But it is simple. Things will always change. We don't have a choice about that, but we do have a choice on how we react to change; and as a leader whether or not we choose to create change. The choice really boils down to this...either we manage change or it will manage us. This session will provide ideas, to inspire, to motivate, and to encourage your team to get out of their comfort zones, to move forward and to embrace change.

#### **Session 2: Take This Job And Love It!**

Find yourself being a TGIF employee? Well, if you find yourself not so enthusiastic about your Monday through Friday routine, you may be giving up on a full five days of your seven-day week. Nearly one third of our lives are spent "on the job." Find out how a little bit of effort, enthusiasm and commitment can enhance our professional and personal lives.

#### **Session 3: Equipping Leaders And Staff**

In this Leadership session we will discuss equipping supervisors and staff with the tools they need to train for a teamwork environment. We will start with whom we should equip and finish up with equipping for the next level. "The greatest leader is willing to train people and develop them to the point that they eventually surpass his or her knowledge and ability." (Fred A. Manske, jr.)

#### **Session 4: Eat That Frog**

There just isn't enough time for everything on our "to do" list and there never will be. Successful people don't try to do everything. They learn to focus on the important tasks and make sure those tasks get done. This session will show you how to zero in on the critical tasks and organize each day. It will show you how to stop procrastinating and not only get more done faster but get the right things done.

#### **Session 5: Performance Management**

Once we have equipped our leaders and staff, then it's time to put their skills into action. This session will help to ensure that goals are consistently met, both effectively and efficiently. Measuring, monitoring and rewarding job performance is crucial to productivity. Clearly defining performance objectives and goals, and providing positive or negative feedback as appropriate. Making the best use of your employees' skills is essential to success.

#### **Session 6: 101 Ways To Have A Great Day At Work**

Having a bad day at work? Looking for creative ways to turn that day around? This audience participation session explores the many ways we can turn any workday into a great day.
